

Bastelbogen

Mein kleiner Laden

von Frank Nolting

Liebe Bastelfreunde,

mit diesem Bastelbogen könnt ihr eine Haus mit Laden bauen.

Ich empfehle den Druck auf Tonpapier oder Fotokarton mit der Stärke 300 g/m².

Dieses Dokument enthält 2 Versionen, eine zum Ausdrucken mit einem Farbdrucker und die andere in schwarz-weiß zum Selberanmalen oder zum Drucken auf farbigem Tonpapier.

Wer die farbige Version drucken möchte, der druckt bitte die Seiten 4 bis 13.

Wer die schwarz-weiß Version drucken möchte, der druckt bitte die Seiten 8 bis 17.

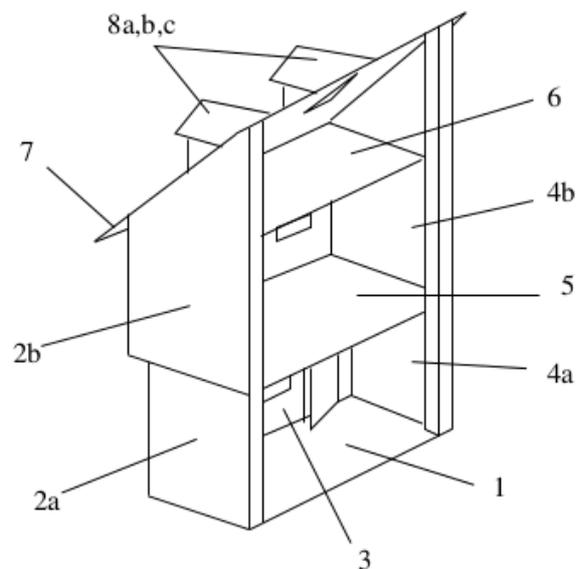

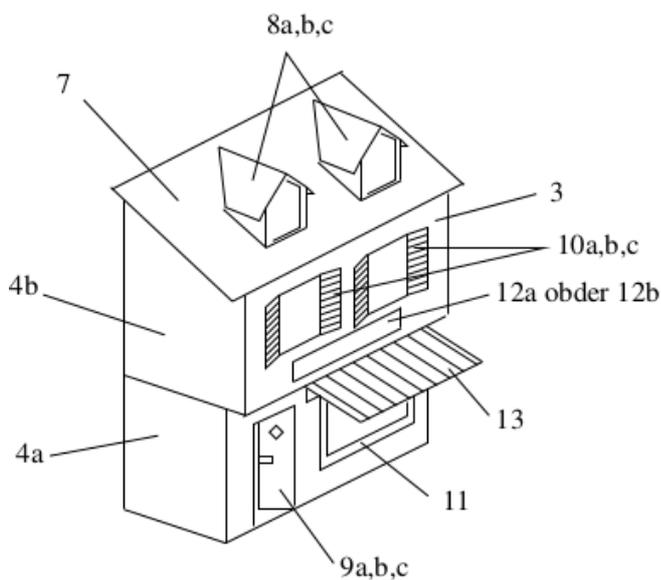

Das Dach und die Klappläden kann man, wie man auf dem Foto vorne sieht, auch mit bunter Wellpappe gestalten.

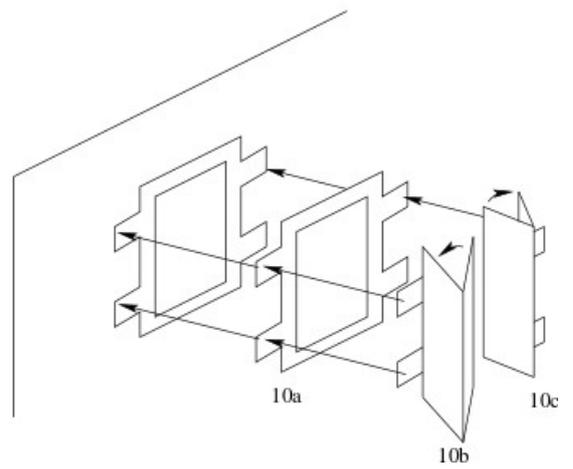

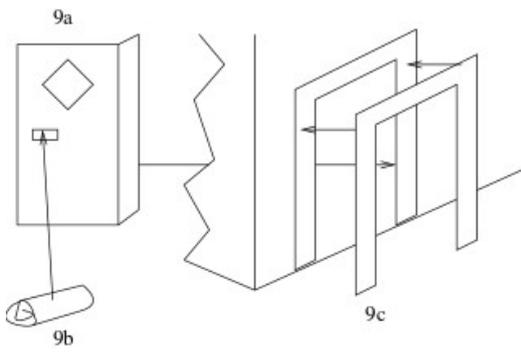

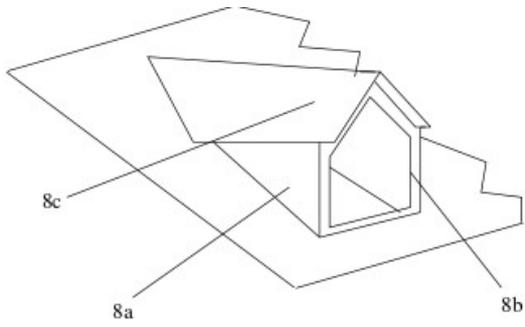

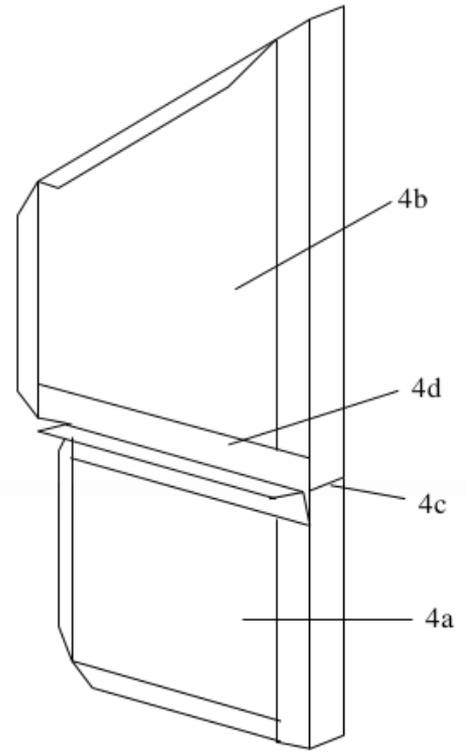

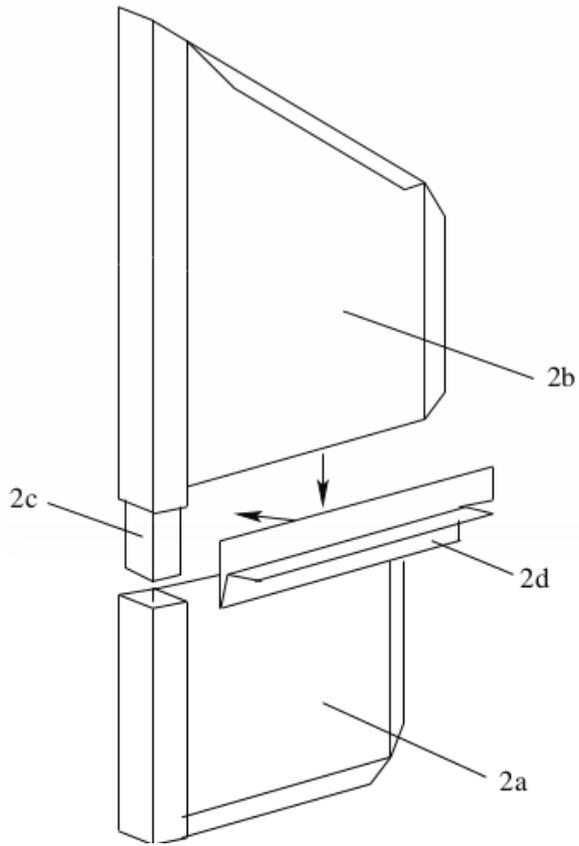

Den Boden, die Zwischendecken und das Dach solltet ihr mit festem Karton verstärken.

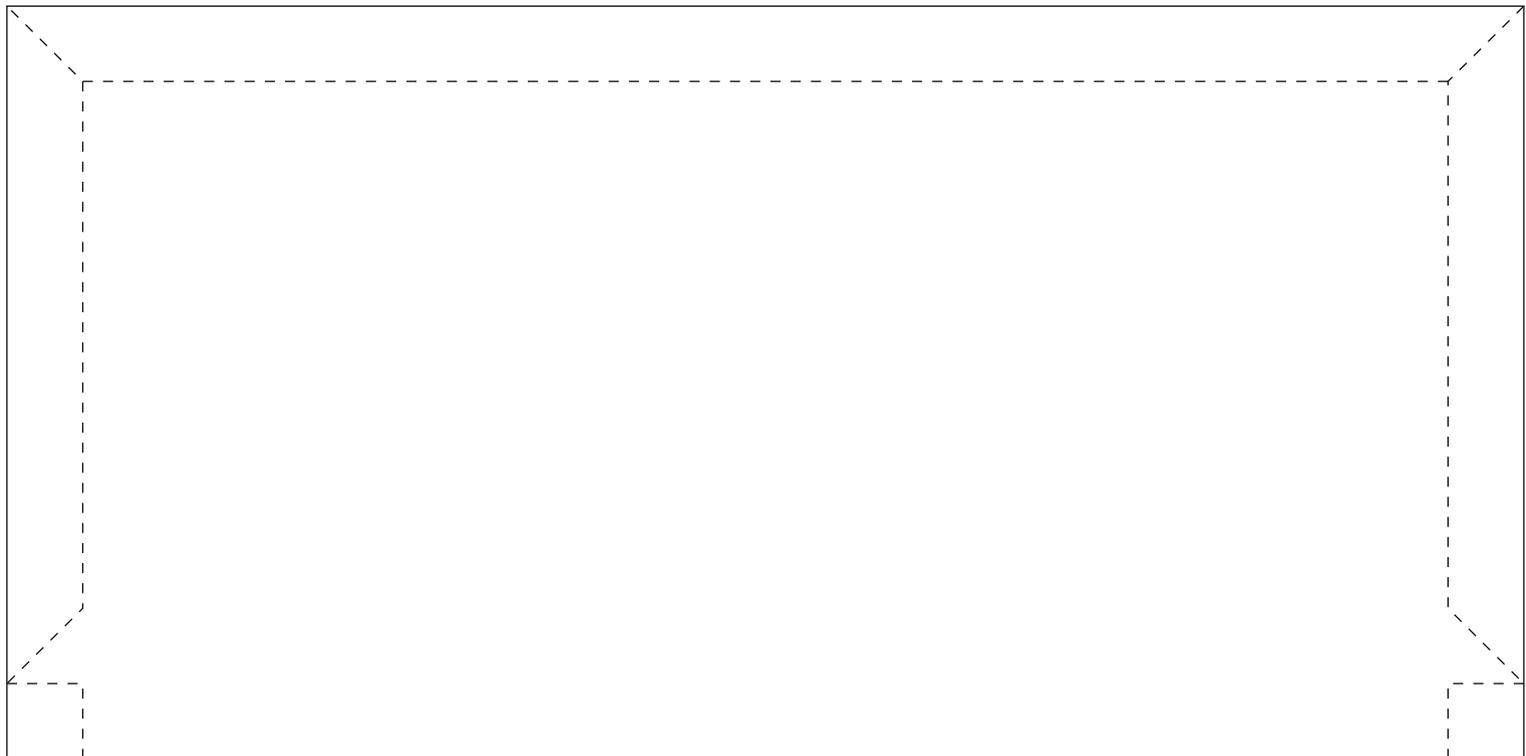

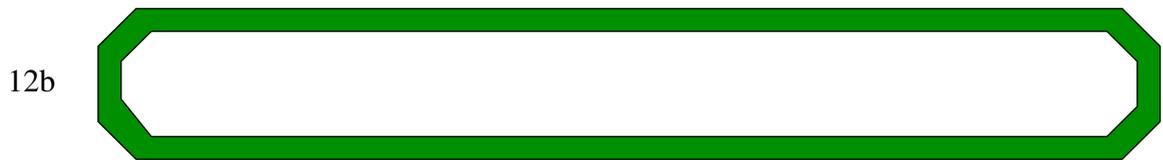

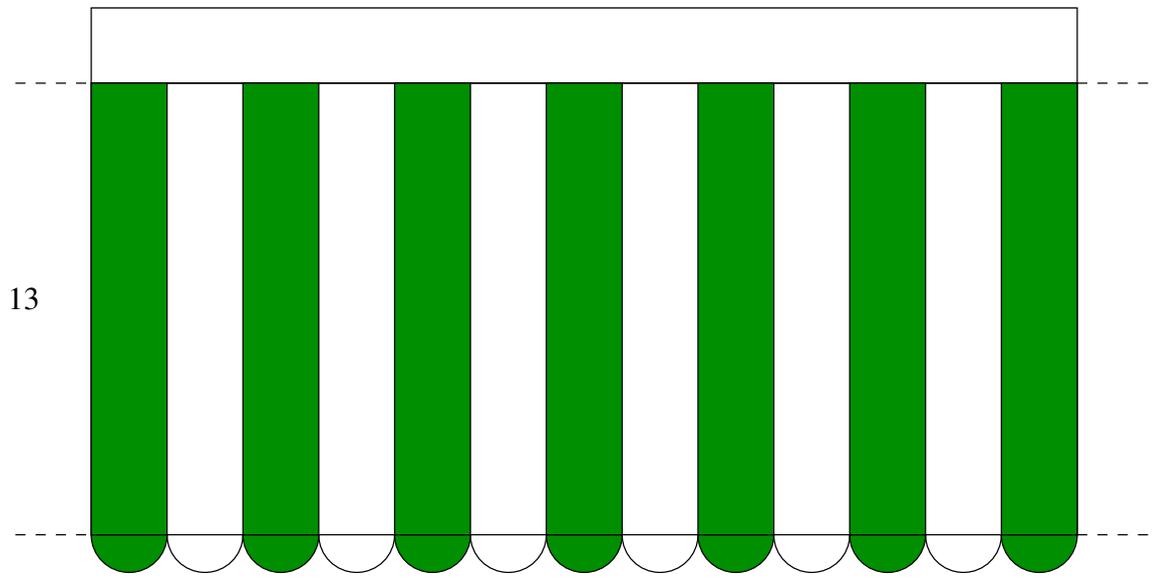

Kleiner Tip: Wenn ihr die Knickkanten vorher mit einem stumpfen Messer leicht anritzt, dann lassen sich die Kanten besser und gerade abknicken.

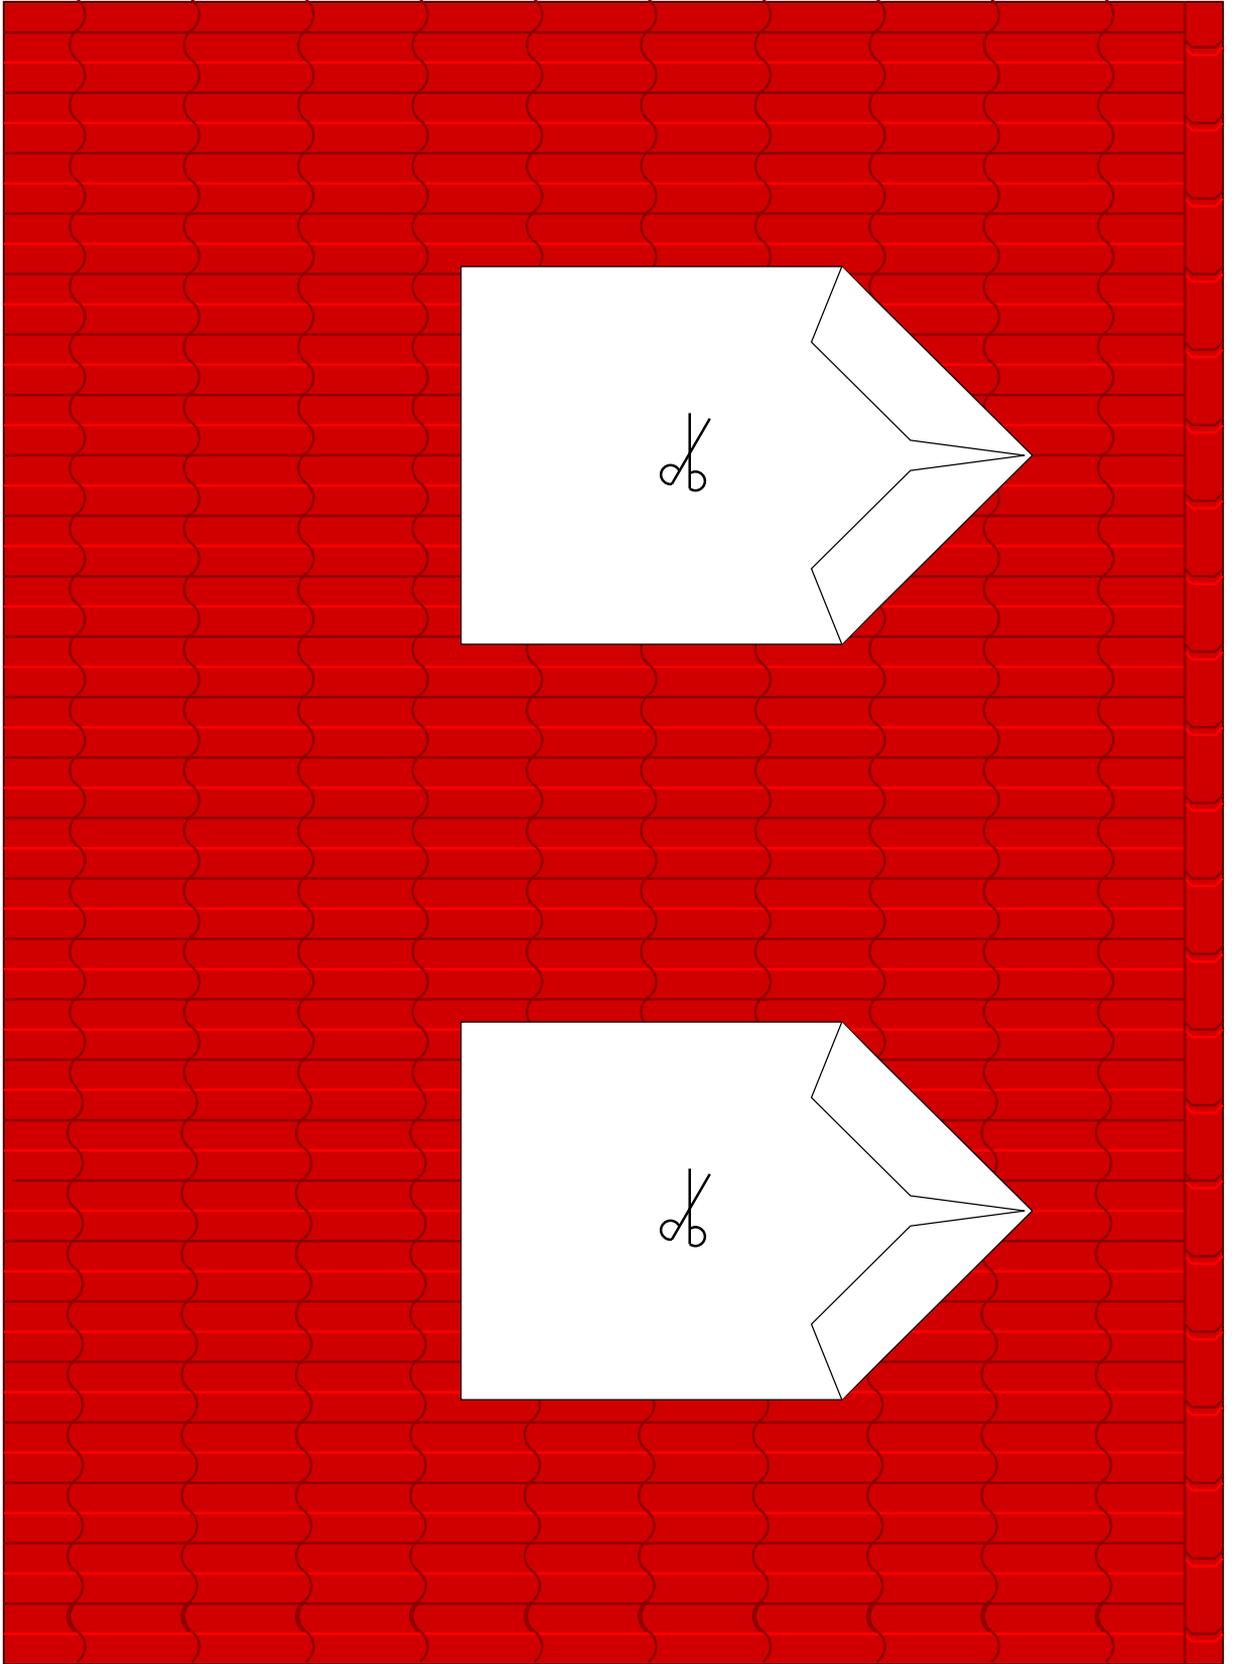

Ihr dürft diesen Bastelbogen im PDF Format gerne an andere weitergeben und kopieren aber nicht kommerziell verwerten.

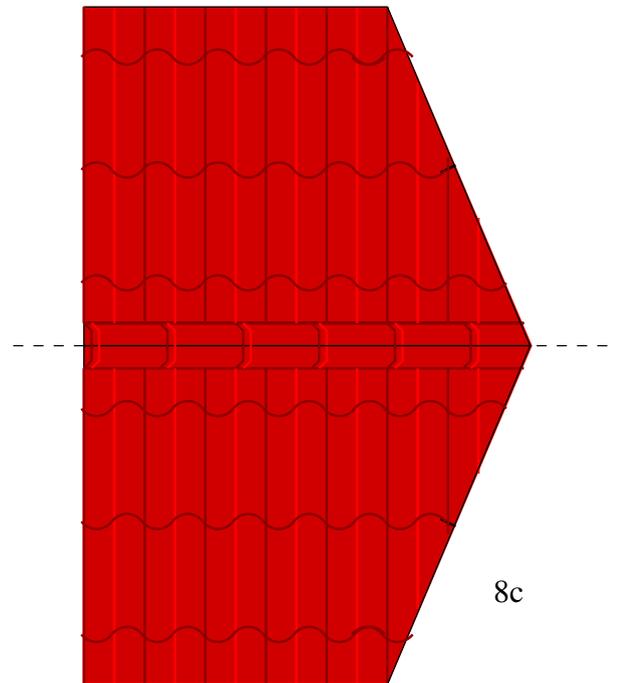

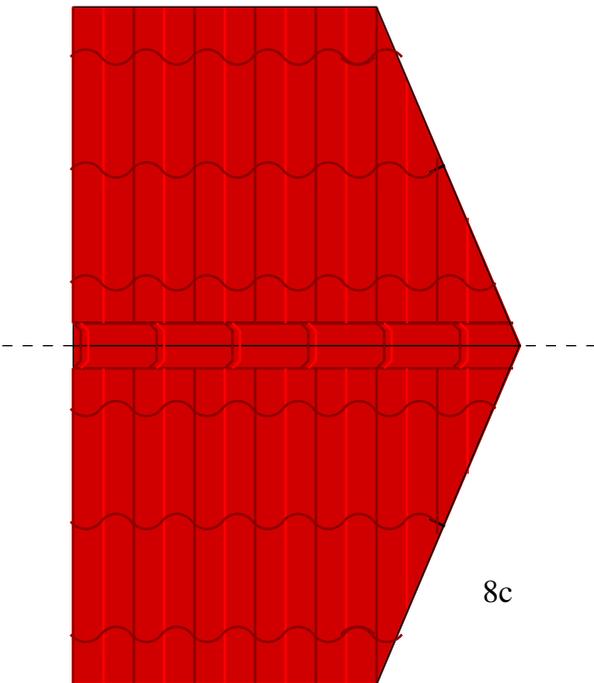

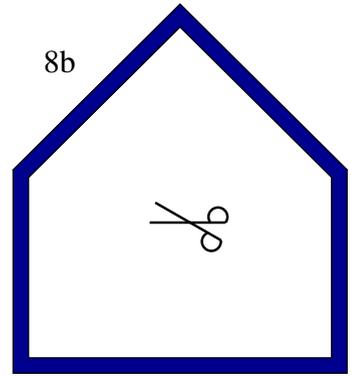

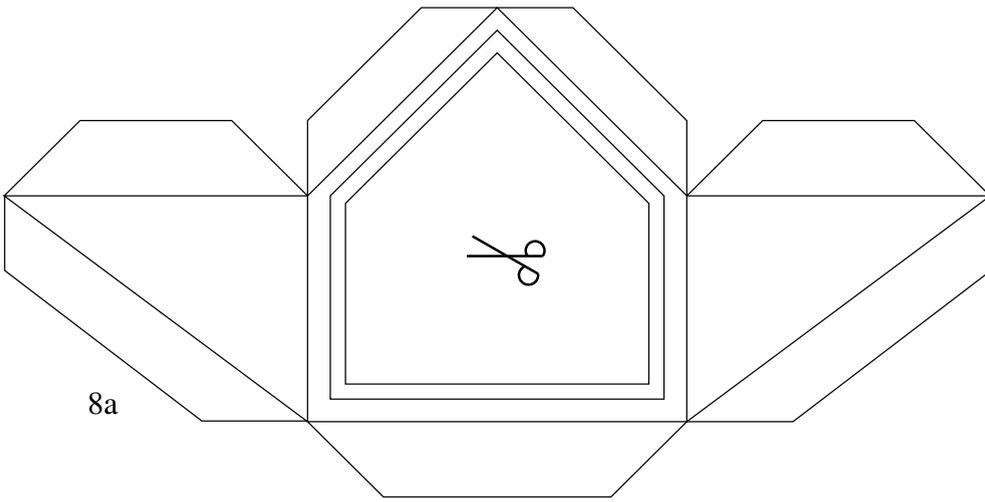

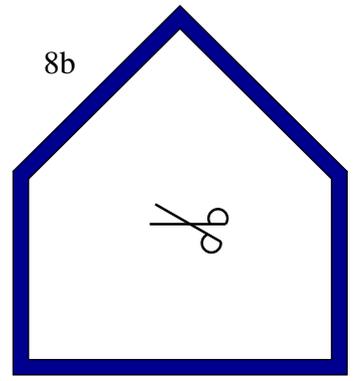

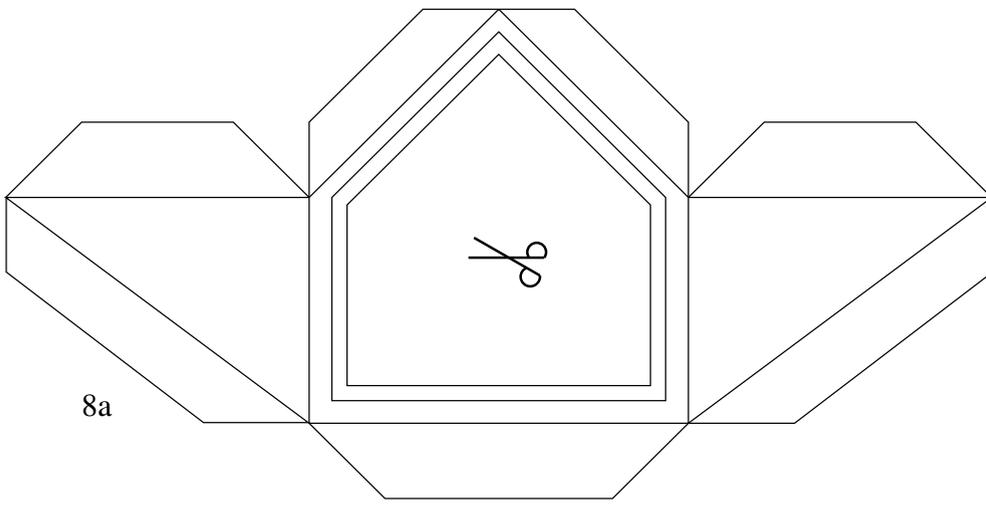

Viel Spaß beim Basteln,
Euer Frank
